

End Ballot Harvesting and Ballot Trafficking!

There are many state and national security breaches in our election system that can only be remedied through legislation at the state level. Here are five recommended security policies:

1. No All-Mail Voting
2. No Automatic Voter Registration
3. STRICT Absentee Ballot Security Policy
4. Strong Anti-Ballot Harvesting/Trafficking Laws and Enforcement
5. No Unsecured, Unsupervised Drop Boxes

States Requiring Election Security Reforms by Policy:
